Dear Parents, Carers, Children and Staff,

Newsletter Date: 11/04/2025

WHAT DO YOU  
CALL SOMEONE  
WHO IS HAPPY ON  
A MONDAY?  
RETIRED!

I would like to take this opportunity to let you know that Mrs Sharp, our deputy headteacher will be leaving us at the end of this academic year. It is with very mixed emotions that I share this news with you as we will all miss her, but are also delighted for her as she will be heading on to an exciting new chapter in her retirement. As many of you will be aware Mrs Sharp is also our SEND and Inclusion leader. Mrs Toller will be taking on the role of SEND and Inclusion leader and has already worked with many children across the school in her previous role within the SEMH team. Mrs Toller will join us next term and will work along side Mrs Sharp, so there will be a smooth transition into her new role. There will be more details regarding Mrs Sharp's exciting retirement later in the summer term.

# celebrating our week

**Year 6** have had great fun designing and making their own mountains using Modroc. They have thought carefully about the type of mountain they will create and also how they are going to incorporate the key features of a mountain. Keep your eyes peeled for their finished versions!

Our **Year 1** trip to Warwick Castle on Tuesday was great fun. We did the William the Conqueror walk, we toured the whole castle and then had lunch whilst watching the birds of prey show.

**Year 5** were excited to share their pop up books with year 1 children this week. The books were made in design and technology and included a slider, a lever and a pop up from a nursery rhyme.

**Year 3** have been learning about the life cycle of a flower and acted out the different stages they go through.

Well done to all the **Nursery** winners for our Easter raffle! Thankyou for buying tickets and helping us raise money.

In **Year 2**, we have been learning about mechanisms and how to make levers and linkages to create moving monsters.

Thank you all who contributing in buying raffle tickets, and congratulations to all the winners we raised an amazing £240 to help us buy equipment for our **Reception** outside area.

After completing the Viking Long Boats that **Year 4** designed previously in DT, the children spent an afternoon testing them to see how they performed. They analysed the data and discussed what worked and what didn't and how they could improve their design to make their boats more efficient.
